Stella Speckled White

Our Stella collection is a speckled-glazed showstopper. Pair the porcelain plates, which are fired at a much higher temperature than earthenware to achieve the material's impenetrable texture, with simple white serveware for a standout setting, or mix and match with other colors and patterns for a truly eclectic tablescape. An undulating rim highlights the handmade quality of each piece; a multi-lined ridge adds a structural contrast to the one-of-a-kind finish.
